

100th ANNIVERSARY

Feature Machines of the Month

The Ultimate CNC Combination Lathes

MR Series shown with optional 8 Station Automatic Bi-Directional Indexing Disc Turret

The Perfect Machine for Most of Today's CNC Turning Applications... Pick the Control that is Right for Your Turning Needs

Clausing/MultiTurn MT Series: The MT series features the FANUC Oi-TD control with 'Manual Guide *i*' programming allowing the operator to generate part programs quickly and efficiently through the use of easy-to-understand conversational style cycle prompts. FANUC Oi-TD control package comes with an all digital control and drives offering exceptional value and reliability.

Clausing/MultiTurn MR Series: Equipped with the FAGOR 8055*i* TC CNC Control. This user-friendly control offers both Icon Key based conversational programming or Conventional ISO G-code programming. The extensive use of graphics at the display means that even complex machining tasks are accomplished and set-up time is minimized for both experienced and beginner operators.

The extensive list of machine features include: Anti-friction PTFE material between saddle and bed greatly reduces friction • Heavy-duty cast iron bed ways • Triangular web bed design • Extra wide bed maximizes support for saddle and cross slide assembly • Variable AC spindle drive motor • Automatic three range headstock • Superior headstock lubrication system • Automatic oil system • Digital AC servo drive system • Fully enclosed, interlocking guarding and much more...

Available in Models: 13" swing x 25" center, 15" swing x 50" center, 18" swing x 60" center and 21" swing x 80 and 120" centers
