100th Anniversary Feature Machines of the Month

Where You Need To Go For All Your Turning Applications...

Clausing has A Lathe for Almost Every Turning Application

Clausing/Colchester 'Professional' V.S. Lathes:

Setting the standard for toolroom lathe performance with an AC Inverter Variable Speed Spindle Drive. 13", 15", 18" and 21" swings and up to 120" center distance.

Clausing/Colchester Geared Head Lathes

Are the standard of the industry for performance and quality at a reasonable cost. 13" x 25", 13" x 40" and 15" x 50" models

Clausing/Metosa Soft Start Geared Head and Variable Speed Lathes

Designed to give you years of trouble-free turning, will make a valuable addition to your tool room or machine shop. Equipped with Q.C. Tool Post, Micro Carriage Stop, Bed Stop and Steady Rest...

Just Add Your Chuck and You're Ready to Turn.

- 13", 14", 15", 17", 20" & 24" swings
- Up to 124" centers • 24" swing 6.1" big bore model

Clausing/Metosa E-Series Lathes

Are durable, highly accurate medium-duty machines with the ability to produce very fine surface finishes and maintain high tolerances. E-series lathes are very affordably priced and are equipped with enhanced safety features making them ideal for less experienced operators and are perfect for classroom or toolroom applications. 14" x 30" & 40", 15" x 30" & 40", 17" x 40" & 60" and 20" x 40" & 60"

Clausing Large Swing Extra Heavy-duty, Big Bore, Precision Gap Bed Standard Lathes

Built for all your turning needs. Just fill out the 'Clausing Large Swing Standard Lathe Profile' and we will design a machine that is ideal for your turning applications. Designed for performance, heavy stock removal while providing the versatility.

- 34.6" to 100" swing range • 6" to 24" bore range
- 63" to 487" center distance range
