PRESS RELEASE

Clausing 20" Industrial Drills Can Again Wear the 'MADE IN AMERICA' Label

Clausing Industrial, Inc has moved their 20" Industrial Drill Manufacturing Back To The USA. All castings, components and assembly are done by American Workers to the highest American Manufacturing Standards, meaning more Jobs for America.

The American Made 20" floor drills are designed and built to meet virtually any heavy-duty drilling requirement. The drills are available in column, table with legs and up-to four head multiple spindle models. All feature a massive, heavy-duty precision head with all bearing surfaces precision bored simultaneously for exact alignment, ball bearing support to absorb both radial and thrust loads, 4" turned and ground steel column for rigidity and a precision ground oil through table.

Clausing 20" Drills are available with low/high infinitely variable speeds from 150 to 2000 rpm and 200-1300 rpm or 300-2000 rpm infinitely variable speed ranges. Clausing Drills have a drilling capacity of 1.25" in cast iron, .875" in mild steel and 3MT spindle nose. A range of accessories are available that includes Air-Hydraulic Feed, Coolant System, Dual Palm Button, Drill Chucks and Arbors, Electric Foot Control, Top Mesh Belt Guard and Work Light.

2011 is Clausing's 100 year anniversary, starting the New Century, Clausing Industrial, Inc is dedicated to increase the number of machine tools in their

product line that can wear the 'MADE IN AMERICA' Label meaning more opportunities for American Workers.

To celebrate our first 100 years of providing machine tools to the manufacturing industry and the return of drill press production to America, Clausing will manufacture the 100th Anniversary Commemorative Drill Press thru-out 2011.

Clausing products are covered with a one year warranty and backed by the Clausing Service Center dedicated to support our customers with parts and service.
