

Clausing Industrial

PRESS RELEASE

Clausing Industrial, Inc., Acknowledged Leader of Large Capacity Radial Drills in the United States

Clausing Industrial, Inc offers a full range of heavy-duty, large capacity Clausing Radial Drills.

The drills are available in nine models with capacities for drilling up to 3.15" (80mm) in steel and 3.98" (100mm) in cast iron, tapping up to 2.56" (65mm) in steel and 2.95" (75mm) in cast iron, and boring up to 6" in steel and 10" in cast iron. All models feature a high-quality cast iron arm with hardened and ground slides for smooth, accurate head positioning, hardened and ground nickel-chrome steel high-speed gears, a special arm elevating device that prevents the arm from falling down abruptly after years of usage, a friction-type disc clutch to absorb spindle impact forces and a special spindle balance mechanism providing longer balance spring life than traditional mechanisms.

Clausing Radial Drill Models CL720A, CL820A and CL920A feature an extra auxiliary dial for spindle feed depth indication, allows review of spindle feed depth, .0394" to 7.874". Models CL1100 and CL1230H offer greater capacities and exceptional value. The CL1230H & CL1250H models are equipped with hydraulic clamping, with a push of a button you can have arm unclamped then move vertically, or stop then clamp automatically. Models CL1600H & CLC2500 are equipped with a separate hydraulic clamping unit. Vertical movement of arm is coordinated by an IC timer. With a single touch on push button switch, you can have the arm unclamped then move vertically, or stop then clamp automatically. Very easy to operate, and tools will always stay at the same point after tool shifting. Special automatic tool eject device is supplied to allow you to change tools quickly is standard.

All Clausing Radial Drills are covered with a one year parts and labor warranty.
