

Clausing Industrial

PRESS RELEASE

Clausing Precision Surface Grinders for Any Application... Over 15,000 installations in the U.S.

Clausing Industrial, Inc offers A full range of Manual, Hydraulic and Full 3-Axes Automatic precision surface grinders for virtually any grinding application. Handfeed models are available in 6" x 18" and 8" x 18" sizes and feature a timing belt table drive with handwheel indexing to nine positions without backlash. Hydraulic models come in 6" x 18" thru 16" x 40" sizes and available with Longitudinal Hydraulics and Motorized Crossfeed on 2A Models or Longitudinal Hydraulics, Motorized Crossfeed and Motorized Rapid Up/Down on 3A Models. Full 3-Axes Automatic models feature the ASDII or ASDIII control. The ASDII series control panel feature quick digital

output feedback by encoders and simple touch control panel with digital display. The ASDIII digital control comes with a 7.2" color touch screen and is equipped with the easy to learn and operator exclusive picture mode working system. The ASDIII control offers a optional frequency inverter. Machines are available with 8", 12" and 14" wheel diameters

Clausing Surface Grinders table, saddle and base on all machines are constructed of high grade cast iron with heavy walls and reinforced ribs. All slideways are hand scraped and coated with TURCITE-B, and the slideways and lead-screws are fully oiled by an automatic lubrication system. The spindle is supported by preloaded precision angular contact ball bearings for heavy duty operation.

Clausing offers a line of Large Capacity Precision Automatic Surface Grinders available in sizes from 24" x 48" thru 32" x 120".

Clausing Grinders are covered with a one year warranty and backed by the Clausing Service Center dedicated to support our customers with parts and service.
