C SERIES LATHES

AFFORDABLE. DURABLE. VERSATILE.

A line of precision, high performance geared head and variable speed lathes.
C13 SERIES

Features

- D1-4 Camlock spindle nose
- 2-speed motor driven for 16-step speed from 33-2000 rpm (J Models)
- Variable-Speed drive from 40-2500 rpm in two variable ranges (VSJ Models)
- 3HP (2.25Kw) spindle motor GH / 3HP Inverter VS
- Swing over bed 13”
- Distance between center 30”/40”
- Headstock gears are precision hardened and ground
- Universal gearbox provides comprehensive range of metric, imperial, M.P. and D.P. threading
- Induction hardened & precision ground bed
- 4-Way turret tool post
- 6” 3-Jaw scroll chuck
- Steady Rest w/rollers .38” to 2.75” capacity
- Micrometer bed stop w/5-position turret positions

C14 SERIES

Features

- D1-5 Camlock spindle nose
- 2-speed motor driven for 16-step speed from 33-2000 rpm (J Models)
- Variable-Speed drive from 35-2500 rpm in two variable ranges (VSJ Models)
- 5HP (3.75Kw) spindle motor GH / 5HP inverter VS
- Swing over bed 14”
- Distance between center 30”/40”
- Headstock gears are precision hardened and ground
- Universal gearbox provides comprehensive range of metric, imperial, M.P. and D.P. threading
- Induction hardened & precision ground bed
- 4-Way turret tool post
- 7” 3-Jaw scroll chuck
- Steady Rest w/rollers .39” to 4.9” capacity
- Micrometer bed stop w/5-position turret positions
**C15 SERIES**

**Features**
- D1-6 Camlock spindle nose
- Geared Head 16-step spindle speed from 25-2000 rpm Soft Start control spindle (J models)
- Variable-Speed drive from 20-2500 rpm in 3 variable ranges (VSJ Models)
- 7.5HP (5.5Kw) spindle motor geared head or 10HP (7.5Kw) spindle motor variable speed
- Swing over bed 15"
- Distance between center 30"/40"/50"
- Headstock gears with precision hardened and ground
- Universal gearbox provides comprehensive range of metric, imperial, M.P. and D.P. threading
- Induction hardened & precision ground bed
- Magnetic Brake system with chip trolley
- 4-Way turret tool post
- 9" 3-Jaw scroll chuck
- Steady Rest w/rollers .39" to 5.5" capacity
- Micrometer bed stop w/5-position turret positions

---

**C18-22 SERIES**

**Features**
- D1-8 Camlock spindle nose
- Geared Head 16-step spindle speed from 20-1600 rpm Soft Start control spindle (J Models)
- Variable-Speed drive from 16-2000 rpm in 3 variable ranges (VSJ Models)
- 15HP (11Kw) spindle motor
- Swing over bed 18"/20"/22"
- Distance between center 40"/60"/80"/120"
- Headstock gears are precision hardened and ground
- Magnetic Brake system with chip trolley
- Universal gearbox provides comprehensive range of metric, imperial, M.P. and D.P. threading
- Induction hardened & precision ground bed
- Geared Head machines have soft start spindle feature
- 4-Way turret tool post
- 12" 3-Jaw scroll chuck
- Steady Rest w/rollers .98" to 5.7" capacity
- Micrometer bed stop w/5-position turret positions
The C26 and C30 series large swing Geared Head engine lathes are engineered to allow the accurate and efficient machining of large components. A wide range of optional accessories make these machines suitable for most industrial applications, including job shops, oil field, power utilities and ship building.

Features

- 12 Geared Head Spindle Speeds allow optimum cutting speed for a wide range of machining applications. Speed range 12 to 1000 rpm
- 20 Hp Spindle Motor for exceptional machining power standard
- All gears are made from chromium molybdenum steel treated with cementation and precision ground for long-life and dependability
- One-piece cast iron bed from the ways to floor provides a solid foundation to ensure maximum stability and rigidity under heavy machining operations
- 18” Bed Width, Hardened and Ground, support the saddle and carriage assembly allowing superior positioning and repeatability accuracy
- Turcite ‘B’ is fitted between saddle and bed to greatly reduce friction and stick-slip for smooth operation and superior surface finishes. The low friction Turcite ‘B’ also minimizes bed wear and extends the life of the machine
- Immersing Style Lead Screw reduces abrasion
- 4-way Rapid Traverse for positioning and setup
- 4-way Power Feed for longitudinal, cross and compound feeds
- Tailstock with 4.18” manual positioning for ease of setup and operation
- 4.1” Spindle Bore supported with taper spindle bearings provides outstanding spindle performance and load carrying capabilities, optional spindle bores available
- Coolant system for tool life and part cooling
- Automatic lubrication system to all guideways
- Guarding powder coated for durability
- Full rear splash guard with chip pan
C30 SERIES

The C26 and C30 series large swing Variable Speed engine lathes are engineered to allow the accurate and efficient machining of large components. A wide range of optional accessories make these machines suitable for most industrial applications, including job shops, oil field, power utilities and ship building.

Features

- Variable Spindle Speeds allow optimum cutting speed for a wide range of machining applications. Speed range from 14 to 1000 rpm
- 20 Hp Spindle Motor for exceptional machining power standard
- All gears are made from chromium molybdenum steel treated with cementation and precision ground for long-life and dependability
- One-piece cast iron bed from the ways to floor provides a solid foundation to ensure maximum stability and rigidity under heavy machining operations
- 18” Bed Width, Hardened and Ground, support the saddle and carriage assembly allowing superior positioning and repeatability accuracy
- Turcite ‘B’ is fitted between saddle and bed to greatly reduce friction and stick-slip for smooth operation and superior surface finishes. The low friction Turcite ‘B’ also minimizes bed wear and extends the life of the machine
- Immersing Style Lead Screw reduces abrasion
- 4-way Rapid Traverse for positioning and setup
- 4-way Power Feed for longitudinal, cross and compound feeds
- Tailstock with 4.18” manual positioning for ease of setup and operation
- 4.1” Spindle Bore supported with taper spindle bearings provides outstanding spindle performance and load carrying capabilities, optional spindle bores available
- Coolant system for tool life and part cooling
- Automatic lubrication system to all guideways
- Guarding powder coated for durability
- Full rear splash guard with chip pan

### C13, C14, C15, C18-22

#### Standard Equipment
- Low voltage controls
- Coolant system
- Motor and electric controls system
- 3-Jaw chuck
- 4-way turret toolpost
- Thread dial
- Feed rod overload clutch
- Dead centers & center sleeve
- Leveling blocks
- Service tools and toolbox
- Work light for work area
- Instruction & parts manual
- Small steady rest w/rollers
- Micrometer bed stop w/5 position turret

### C26, C30

#### Standard Equipment
- Hardened and ground bed ways
- Hardened and ground gears
- Chuck guard with limit switch
- 20 Hp motor with inverter drive
- Variable Spindle Speeds, 14-1000 rpm, auto 3 range manual speed change
- Geared Head Spindle Speeds, 12-1000 rpm
- 11” Capacity Steady Rest
- Follower Rest
- 4-way Rapid Traverse
- 4-way Power Feed
- 4-way, 8-position Tool Post
- 1.75” Lead screw
- Lead screw cover
- Coolant system
- Automatic lubrication system
- Traveling chip guard
- Full rear splash guard with chip pan
- Thread dial
- Manual tailstock w/ manual movement and anti slip lock
- Lockable main switch
- Halogen work light
- Leveling screws and pads
- Tools, tool box, operation manual
